

How Home Energy Plus Weatherization Saves Clients Money

Scott Pigg, Seventhwave

September 13, 2016

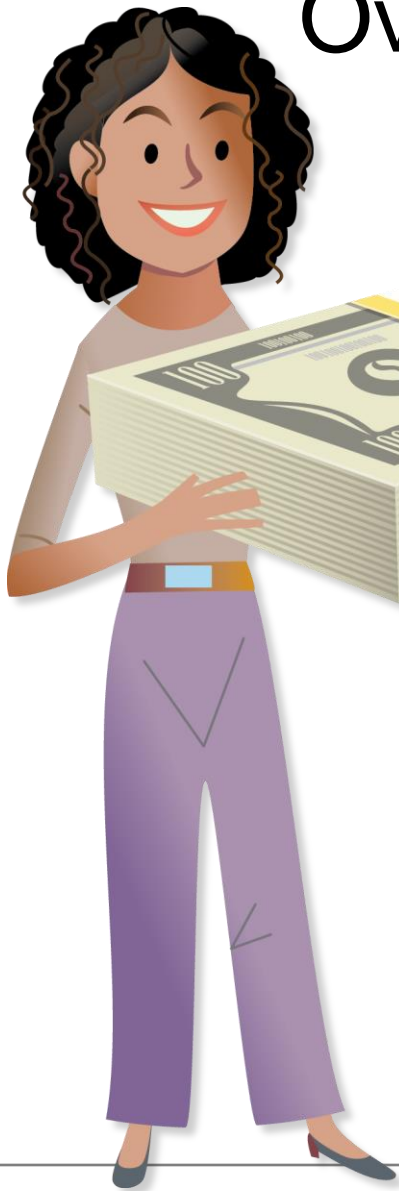

homeenergy+

This is how much the **average** household saves **each year** from the work that you do: **\$420.**

Over the lifetime of the measures...

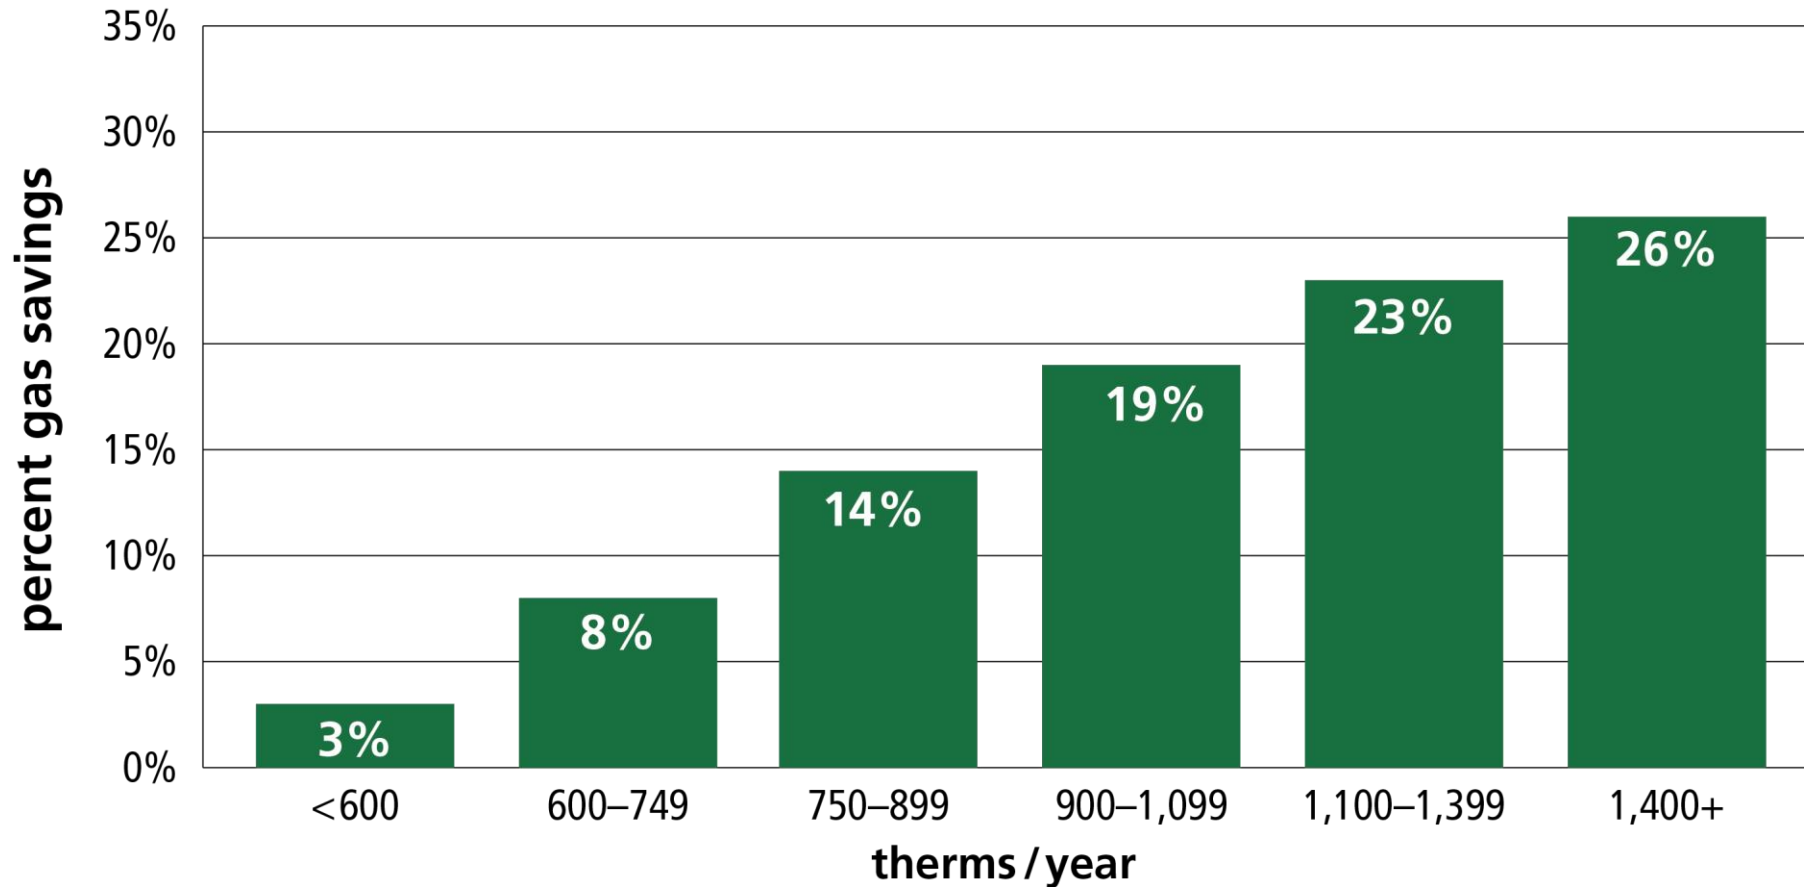

...the **average** household will save just about \$10,000.

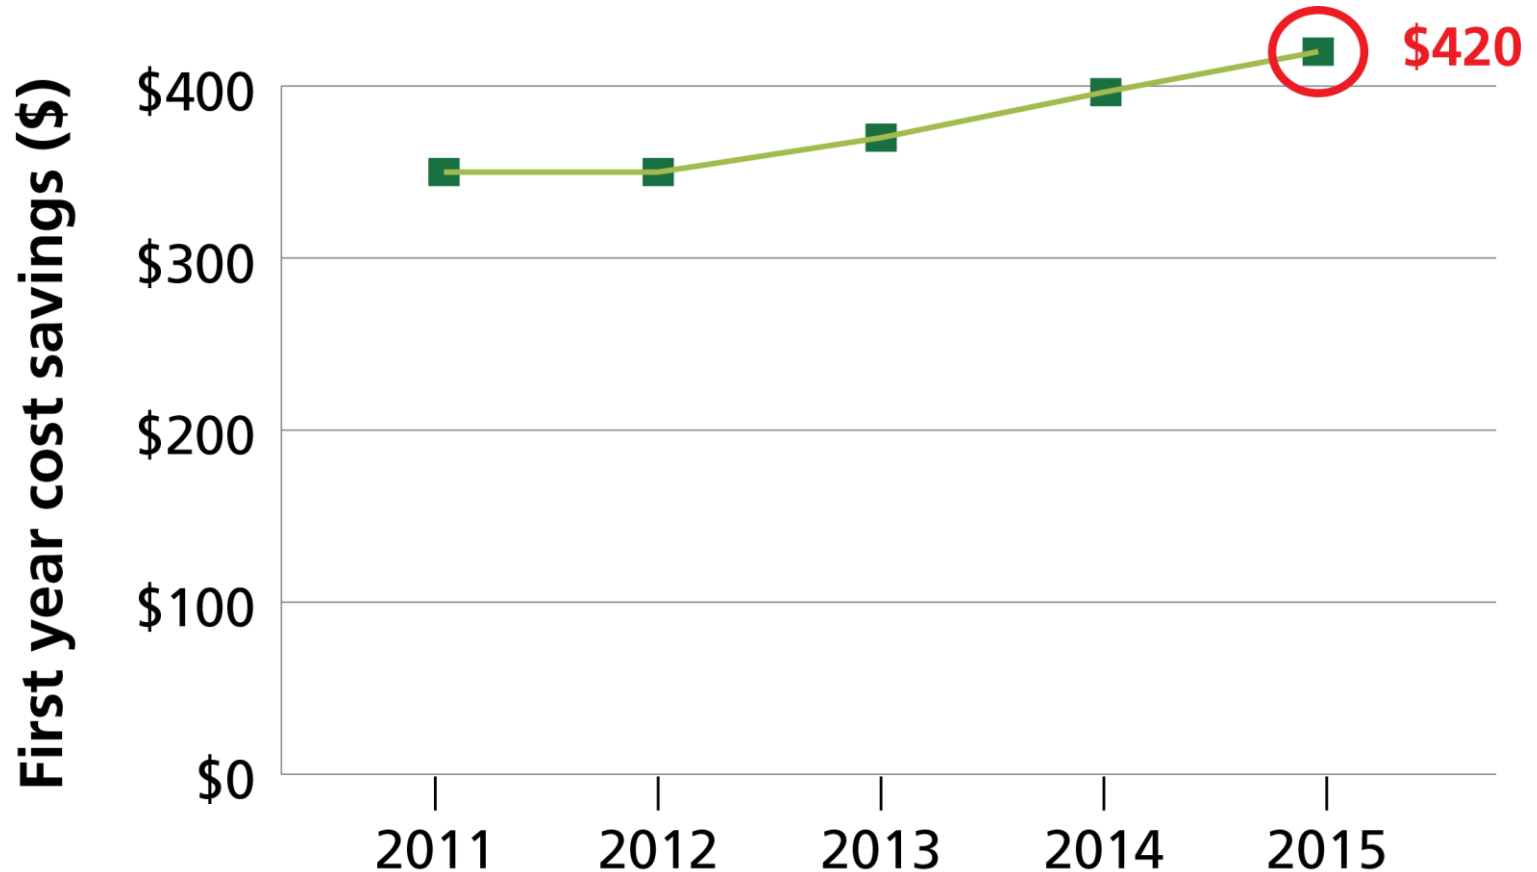

Some will **save more** than \$20,000!

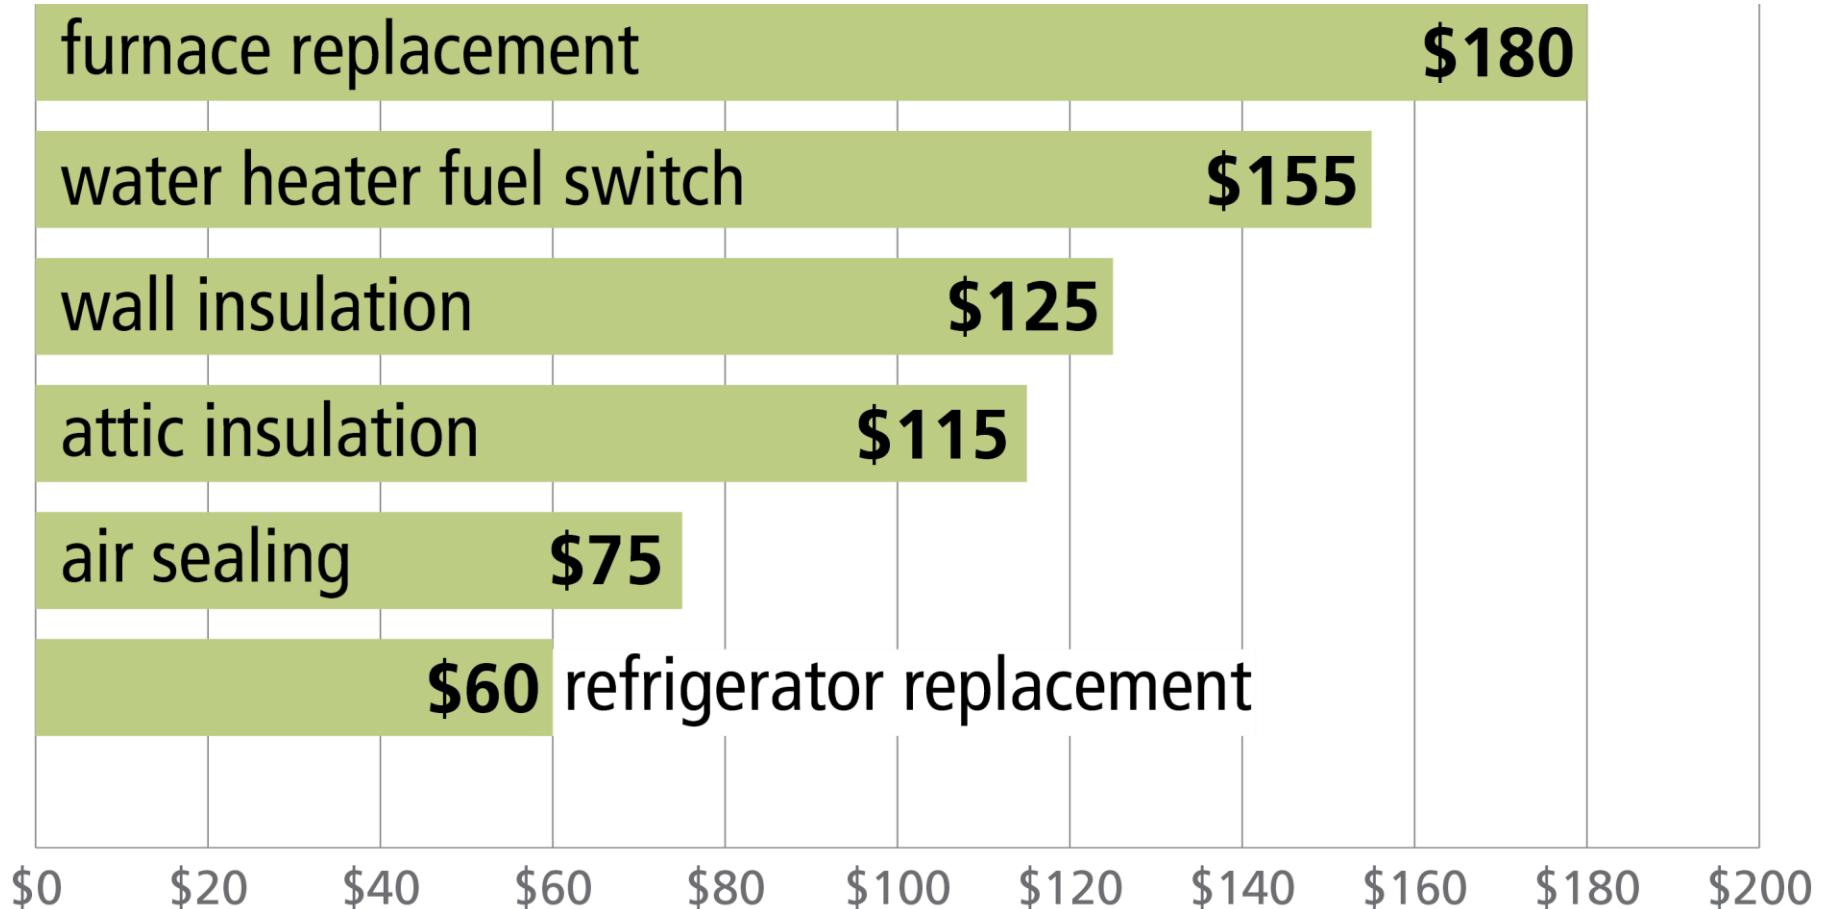

Percent Gas Savings by Pre-Weatherization Usage

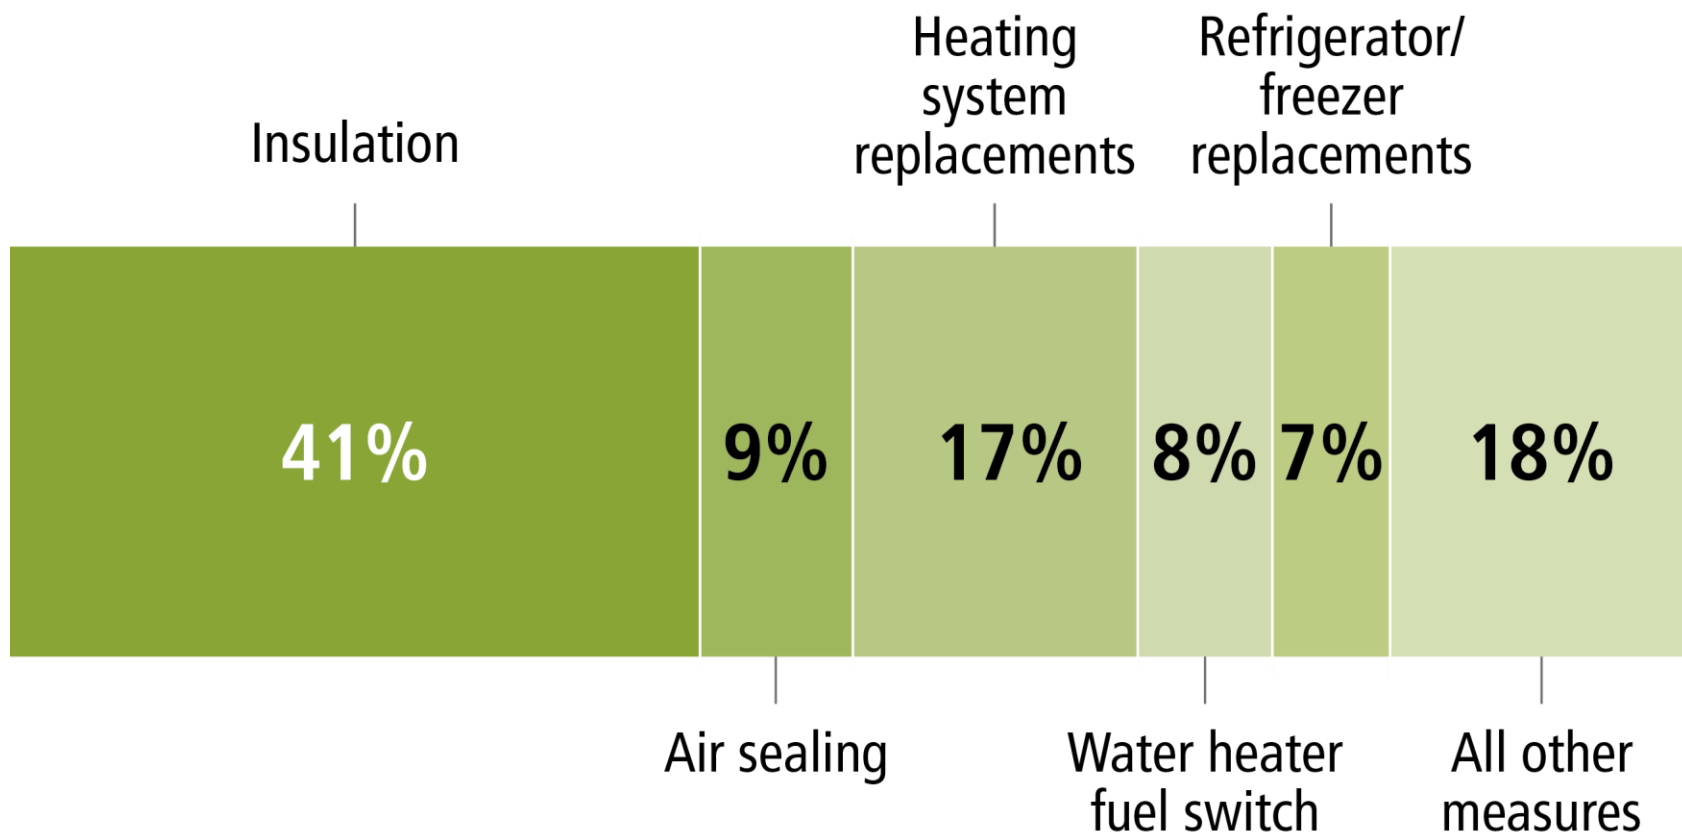

Average Annual Client Cost Savings

Average annual cost savings for selected measures

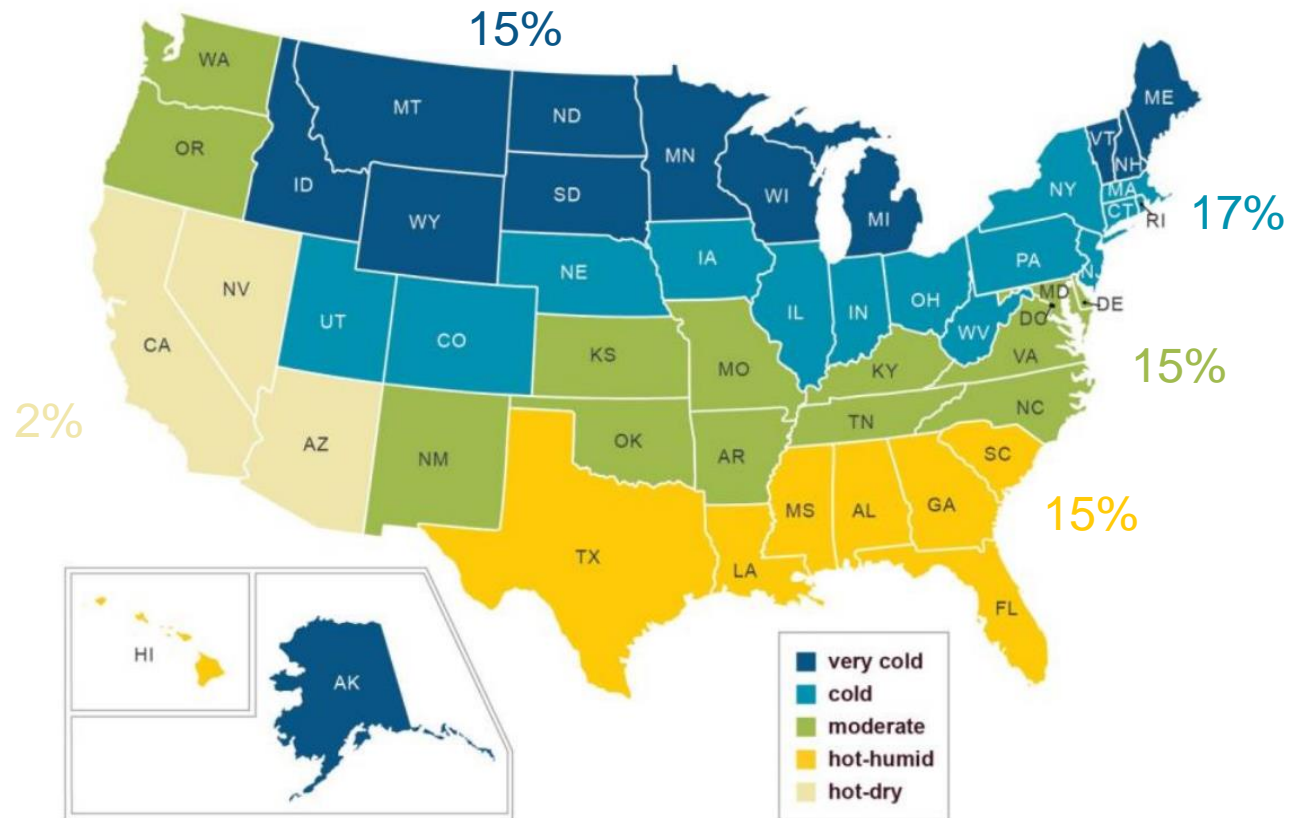

Proportions of total client cost savings for selected measures

National average: 15%

WI: 19%

Single-family, site-built homes with natural gas heat

Source: national WAP evaluation, 2014

You should be proud of what you do. Your work is having a **real and lasting impact** on people's energy bills...
